

F.A.S.T. Update

February 9, 2007

Housing Action Committee

Research is being conducted as to determine the extent of the housing shortage in St. Petersburg, Clearwater and Largo. Meetings have occurred with housing authorities in Clearwater and St Petersburg.

Our plan is to get each city, the county, and possibly the housing authorities to commit to an overall goal for creating permanent housing that meet the entire housing needs throughout the county over a period of time. We also want the county and the cities to commit to make some significant strides in getting the housing trust fund and inclusionary zoning working correctly so that low-income people will be served.

Pat Gerard, mayor of Largo and County Commissioner Ken Welch have committed to come to our Nehemiah Action Assembly.
