

F.A.S.T. Accomplishments: Senior Transportation

F.A.S.T. got Mr. Brian Smith, Director of the Metropolitan Planning Organization, to create a new one-number system for senior transportation. This new system, unveiled in March, 2006, works with the Area Agency for Aging and allows seniors to speak directly with a trained professional who can help them with their transportation needs. There are over 20,500 seniors in Pinellas County who do not drive who will benefit from this new system. The telephone number for seniors is 727-217-8111.
